## INTRODUCTION

This report gives final figures for persons included in the labour force population during the week prior to enumeration, classified by occupation and sex, for census agglomerations, June 1, 1971 Census. Space and printing considerations necessitate the use of occupational codes rather than titles in this table. For the unit group titles corresponding to these 4-digit codes, see Appendix report, Catalogue No. 94-727.

In the 1971 Census, labour force refers to non-inmates 15 years and over, who, in the week prior to enumeration, worked for pay or profit, helped in unpaid family work, looked for work, were on temporary lay-off, or had jobs from which they were temporarily absent because of illness, vacation, strike, etc. Persons doing housework in their own home or volunteer work only, are excluded from the labour force. Also excluded are female farm workers who indicated that they helped without pay in a family farm or business for less than 20 hours. It should be noted that there are indications that the labour force counts for Quebec may be somewhat underestimated due to response problems. Further information regarding the labour force counts is available in the Population and Housing Research Memorandum (PH-EC-4) "Background Information on the 1971 Census Labour Force Data". This paper can be obtained on request from the Census User Inquiry Service.

The information in this report was collected on a 33 1/3% sample basis. Information on the sample and the weighting system can be found in the introductory report to this volume (Catalogue No. 94-715).

The 1971 Census figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Similarly percentages, which are calculated on rounded figures, do not necessarily add to the total. Also, minor differences can be expected for corresponding totals and cell values in various census reports.

Ce bulletin présente les chiffres définitifs concernant la population qui faisait partie de la population active durant la semaine précédant le dénombrement. Cette population active est distribuée selon la profession et selon le sexe pour les agglomérations recensement au premier juin 1971. Des considérations d'espace d'impression ont nécessité, dans ce tableau, l'utilisation des codes de professions plutôt que des titres. Pour les titres des groupes de personnes correspondant aux codes de professions à quatre chiffres, voir l'Appendice, n° 94-727 au catalogue.

Au recensement de 1971, la population active comprend l'ensemble des non-pensionnaires d'institution de 15 ans et plus qui, au cours de la semaine précédant le dénombrement, ont travaillé contre rémunération ou en vue d'un bénéfice, sans rémunération dans une entreprise familiale, ont cherché du travail, étaient en congédiement temporaire ou avaient un emploi dont ils étaient temporairement absents à cause d'une maladie, de vacances, d'une grève, etc. Les personnes ne faisant que des travaux ménagers chez elles ou du travail bénévole sont exclues de la population active. Sont également exclues les travailleuses agricoles qui ont indiqué avoir travaillé moins de 20 heures sans rémunération dans une ferme ou une entreprise familiale. Il est à noter que, suivant certaines indications, la population active du Québec est peut-être quelque peu sous-estimée, en raison de certaines difficultés d'interprétation. On trouvera de plus amples renseignements concernant les chiffres de la population active dans une Note de recherche sur la population et le logement (PH-EC-4), intitulée "Étude des données de recensement de 1971 sur la population active". Cette note de recherche peut être obtenue sur demande au Service-utilisateurs, Recensement.

Les renseignements de la présente publication ont été recueillis par un échantillonnage de 33 1/3 %. Vous trouverez ces renseignements sur le système d'échantillonnage et de pondération dans l'introduction de ce volume (n° 94-715 au catalogue).

Par souci de confidentialité, les chiffres de 1971 publiés ici ont été soumis à une formule qui garantit l'impossibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres d'unités, des tableaux (y compris tous les totaux) sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De même, la somme des pourcentages calculés à partir de chiffres arrondis ne correspond pas forcément au total. Aussi, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences.

(1) NE COMPREND PAS LES PERSONNES CHERCHANT DU TRAVAIL, AYANT TRAVAILLE AVANT LE 1ER JANVIER 1970 OU N'AYANT JAMAIS TRAVAILLE

Statistics Canada Library  
Bibliothèque Statistique Canada

1010016951

## DEFINITIONS

**Census Agglomeration (CA):** A statistical area having an urban centre with a population over 1,000 and adjacent built-up area of at least 1,000 population and a minimum density of 1,000 persons per square mile. In this report only those census agglomerations of 25,000 and over are shown.

**Occupation:** Refers to the specific kind of work the person did on the job, as determined by the reporting of the kind of work, the description of the most important duties and the job title. Data relate to the respondent's job in the week prior to enumeration if he/she had a job during that week or to the job of longest duration since January 1, 1970 if not employed in that week. Persons with two or more jobs during the reference week were asked to give the information for the one at which they worked the most hours.

**Occupational classification:** A classification system based on the Canadian Classification and Dictionary of Occupations was used in the 1971 Census. Unit groups to which occupations are classified in this system were formed to have a "desirable degree of homogeneity with respect to kind of work performed". Although work performed may be influenced by a particular industrial process, the classification of individuals by their kind of work is theoretically independent of the nature of business of the establishment in which it is carried on. In most cases, self-employed individuals reporting their kind of work are classified to the relevant unit group in the same fashion as employees.

For further information on the classification, including definitions of the individual unit groups, see "Occupational Classification Manual, Census of Canada, 1971", Volume 1, Catalogue No. 12-536. For the occupational titles corresponding to the 4-digit unit group codes shown in this table, see the Appendix report, Catalogue No. 94-727 or the Occupational Classification Manual itself.

**Note: Comparability with previous censuses:** The 1971 occupational classification differs considerably from previous ones. The 1971 classification is the result of a complete revision of earlier classifications. Consequently, comparisons with earlier censuses cannot be made at this time. A special trend report will be published at a later date.

The estimate of the mean square error for the characteristic covered in this report was not available at the time of publication. It will be available in the introductory report to this volume (Catalogue No. 94-715). Those users requiring this information prior to the release of the introductory report should contact the Census User Inquiry Service.

## DÉFINITIONS

**Agglomération de recensement (A.R.):** Unité statistique ayant un centre urbain de 1,000 habitants et plus, adjacent à une zone bâtie d'au moins 1,000 habitants et d'une densité minimum de 1,000 habitants au mille carré. Dans ce bulletin, seules les agglomérations de recensement de 25,000 habitants et plus sont indiquées.

**Profession:** Genre de travail que faisait le recense, déterminé par l'indication du genre de travail, la description des fonctions principales et le titre de l'emploi. Les données portent sur l'emploi que le recensé occupait pendant la semaine précédant le dénombrement, s'il avait un emploi cette semaine-là, ou sur l'emploi de plus longue durée depuis le 1<sup>er</sup> janvier 1970, s'il n'avait pas d'emploi cette semaine-là. Les personnes ayant deux emplois ou plus pendant la semaine de référence devaient fournir des renseignements pour celui auquel elles avaient consacré le plus grand nombre d'heures.

**Classification des professions:** Au recensement de 1971, on a utilisé une classification fondée sur l'ouvrage intitulé "Classification et dictionnaire canadiens des professions". Cette classification est formée de groupes de base réunissant les professions de manière à assurer un "certain degré d'homogénéité par rapport au genre de travail exécuté". Bien que le travail exécuté puisse subir l'influence de certains procédés industriels, le classement d'un particulier selon son genre de travail est en théorie indépendant de l'activité de l'établissement où il travaille. Dans la plupart des cas, les travailleurs indépendants sont classés dans le groupe de base approprié, tout comme les salariés.

Pour de plus amples renseignements sur la classification et sur les définitions des groupes de base, voir "La classification des professions, Recensement du Canada, 1971", volume I, n° 12-536F au catalogue. Pour les titres des groupes de base correspondant aux codes de professions à quatre chiffres montrés dans ce tableau, voir l'appendice, n° 94-727 au catalogue, ou le manuel de classification des professions.

**Nota: Comparabilité avec les recensements antérieurs:** La classification des professions de 1971 diffère grandement des classifications précédentes. Elle est le produit d'une révision complète des classifications antérieures. Conséquemment, des comparaisons avec les recensements antérieurs ne peuvent actuellement être faites. Un rapport spécial sur les tendances sera publié à une date ultérieure.

L'estimation de l'erreur quadratique moyenne de la caractéristique donnée dans ce bulletin n'était pas disponible au moment de la publication. Elle sera disponible dans le rapport introductoire de ce volume (n° 94-715 au catalogue). Les utilisateurs demandant ce renseignement avant la publication du rapport introductoire devraient s'adresser au Service-utilisateurs, Recensement.

This report is one of the Volume Series of publications of the 1971 Censuses of Population, Housing and Agriculture. Altogether, there are some 225 reports in this series prepared in such a way that by removal of their covers the contents can be combined to form the materials comprising the 6 volumes and 25 separate volume parts in the entire series. A hard-covered binder, suitably titled, is included in the composite price to purchasers of the complete set of reports for any given volume part.

### Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. For further information on census publications, address your inquiry to Information Division, Statistics Canada.

### How to order reports

Orders for reports may be sent to Publications Distribution, Statistics Canada, Ottawa K1A 0T6, or to Publishing Division, Information Canada, Ottawa K1A 0S9. Enclose payment with your order in the form of a cheque or money order made payable to the Receiver General of Canada. If more convenient, census publications may be ordered from Information Canada bookstores in Halifax, Montreal, Ottawa, Toronto, Winnipeg, or Vancouver. For other details concerning deposit accounts, bulk orders, etc., contact Publications Distribution, Statistics Canada.

### Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Field, Statistics Canada, Ottawa K1A 0T7.

### Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. Requests should be sent to the Census User Inquiry Service specifying clearly the precise classifications or cross-classifications and the geographic areas. The exact categories for each characteristic and a rough table layout should be included.

### Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Field of Statistics Canada.

Le présent bulletin fait partie de la série des volumes des recensements de la population, du logement et de l'agriculture de 1971. Cette série compte au total environ 225 bulletins présentés de telle sorte qu'en retirant leur couverture l'utilisateur peut les réunir et constituer ainsi les 6 volumes de la série, qui comprennent 25 parties distinctes. Un auto-relieur à couverture rigide portant le titre approprié est compris dans le prix d'achat de la série complète des bulletins constituant une partie de volume.

### Catalogue

On peut se procurer un catalogue qui décrit chaque bulletin de la série des volumes du recensement de 1971, ainsi que les bulletins des autres séries (série préliminaire, série des secteurs de recensement et série spéciale). Le catalogue contient également une liste de prix et une formule de commande. On peut obtenir un exemplaire de ce catalogue en s'adressant à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6. Pour tout renseignement complémentaire sur les publications du recensement, s'adresser à la Division de l'information de Statistique Canada.

### Commandes de bulletins

Les commandes de bulletins peuvent être envoyées à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6, ou à la Division de l'édition, Information Canada, Ottawa K1A 0S9. Toute commande doit être accompagnée d'un chèque ou d'un mandat établi à l'ordre du Receveur général du Canada. On peut aussi commander les publications du recensement aux librairies d'Information Canada de Halifax, de Montréal, d'Ottawa, de Toronto, de Winnipeg et de Vancouver. Pour plus de détails sur les comptes de dépôt, les commandes en gros, etc., s'adresser à la Distribution des publications, Statistique Canada.

### Autres formes de publication

En plus des diverses publications contenant les résultats du recensement de 1971, de nombreux tableaux seront mis à la disposition des utilisateurs sous forme d'états mécanographiés. Ces tableaux seront également disponibles en microcopie. Les utilisateurs désireux de faire des analyses par des moyens mécanographiques pourront également se procurer un large éventail de tableaux statistiques sur bandes "sommaires". Pour tout renseignement sur le contenu, le prix et la disponibilité des résultats du recensement sur ces supports, s'adresser au Service-utilisateurs, Secteur du recensement, Statistique Canada, Ottawa K1A 0T7.

### Totalisations spéciales

Dans la mesure où le respect du secret des données le permettra, Statistique Canada établira, à l'intention des utilisateurs qui en acquitteront les frais, des totalisations spéciales qui ne font pas encore partie du programme d'exploitation prévu. Il faut envoyer les demandes au Service-utilisateurs des données du recensement en précisant bien les classements ou recoupements et les régions géographiques. Il faut inclure les catégories exactes pour chaque caractéristique et une ébauche de la disposition des tableaux.

### Cartes et fichiers géographiques

Les utilisateurs pourront se procurer des cartes à grande échelle indiquant les limites des secteurs de dénombrement (c.-à-d. des territoires recensés par chaque représentant du recensement) ainsi que des cartes à petite échelle des divisions de recensement et des autres secteurs statistiques. Les documents constituant les fichiers géographiques (noms, codes, etc. géographiques) sont disponibles sous forme de tableaux présentant les différents secteurs de dénombrement qui constituent les unités administratives et statistiques (par ex., villes, villages, municipalités et secteurs de recensement). Pour plus de détails et pour une indication des frais, s'adresser au Service-utilisateurs du Secteur du recensement de Statistique Canada.
